### Consultation according to Faculty Law

Project: Quality of Care in Paediatric Gastroenterology, Hepatology and Nutrition in Europe.  
A long-term project sponsored by ESPGHAN  
Applicant: Prof. Dr. med. Sibylle Koletzko, Pädiatrische Gastroenterologie und Hepatologie, Dr. von Haunersches Kinderspital, Klinikum der LMU, Lindwurmstr. 4, D-80337 München

Dear Prof. Koletzko,

herewith, the Ethical Committee of the Ludwig Maximilian University Hospital (LMU Klinikum) grants a waiver of formal ethical approval for this project. Reasons are:

- The Quality-of-Care project of ESPGHAN observes national public data and involves survey procedure (questionnaires) on hospital level collecting data, which relate to participating hospitals as institutions and not to any identified or identifiable natural person.
- The Quality-of-Care project of ESPGHAN involves questionnaires to data rendered anonymous on patient level which are irreversible anonymized and will not allow any identification of single subjects.

The Quality of Care project of ESPGHAN fulfils criteria of an anonymous survey and is compliant with Article 6 of the General Data Protection regulation (GDPR) (see statement of Gerhard Meyer, Data Protection Officer (udisziert))

Yours sincerely,

Prof. Dr. W. Eisenmenger  
Chairman of the Ethics Committee
